23CS354 – MINI PROJECT - I

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

MEPCO SCHLENK ENGINEERING COLLEGE, SIVAKASI

(An Autonomous Institution affiliated to Anna University Chennai)

November 2025

BONAFIDE CERTIFICATE

This is to certify that it is the Bonafide work titled **"UFC MANGAEMENT SYSTEM"** carried out by **HARIHARASUDHAN A (Reg. No.: 9515202404044)**, **HARI PRASAD V (Reg. No.: 9515202404048)**,**MUHAMMED YOUSUF M (Reg. No.: 9515202404090)** for the course **23CS354 - Mini Project – I**, Mepco Schlenk Engineering College (Autonomous), Sivakasi during **III semester** in the academic year 2025 – 2026.

Faculty In-Charge **Head of the Department**

Submitted for the Practical Examination held at Mepco Schlenk Engineering College (Autonomous), Sivakasi on ……/……/ 20…….

ABSTRACT

The UFC Management System is a standalone desktop application designed to efficiently manage fighter information, match scheduling, rankings calculation, and user authentication for Ultimate Fighting Championship (UFC) events. The system addresses the need for a centralized platform to store, retrieve, and manage player details, calculate Pound-for-Pound (P4P) rankings based on performance metrics, and handle administrative operations.

The application is developed using Java Swing for the frontend interface, Java for backend logic, and Oracle SQL for database management. The system provides two distinct user roles: Admin and User, each with specific privileges and access rights. Admins can manage fighters, schedule matches, verify user registrations, and view system analytics, while regular users can search for fighters, view match details, and access ranking information. Key features include secure authentication with role-based access control, real-time data validation, interactive UI components with UFC branding, and comprehensive analytics dashboard. The system ensures data integrity, provides user-friendly interfaces, and maintains scalability for future enhancements.

ACKNOWLEDGEMENT

First and foremost, we thank the **LORD ALMIGHTY** for his abundant blessings that is showered upon our past, present and future successful endeavors.

We extend our sincere gratitude to our college management and Principal **Dr. S. Arivazhagan M.E., Ph.D.,** for providing sufficient working environment such as systems and library facilities. We also thank him very much for providing us with adequate lab facilities, which enable us to complete our mini-project.

We would like to extend our heartfelt gratitude to **Dr. J. Raja Sekar M.E., Ph.D.,** Professor and Head, Department of Computer Science and Engineering, Mepco Schlenk Engineering College for giving me the golden opportunity to undertake a mini-project of this nature and for his most valuable guidance given at every phase of our work.

We would also like to extend our gratitude and sincere thanks to **Dr.B.Selvakumar, B.Tech., M.E., Ph.D.,** Associate Professor and **Dr. M. Chengathir Selvi B.Sc., MCA., M.E., M.Phil ., Ph.D.,** Associate Professor (Sr. Grade), Department of Computer Science and Engineering, Mepco Schlenk Engineering College for being our Project Mentors. They put their valuable experience and expertise in directing, suggesting and supporting us throughout the mini-project to bring out the best.

Our sincere thanks to our revered **faculty members and lab technicians** for their help over this mini-project work.

Last but not least, we extend our indebtedness towards out beloved family and our friends for their support which made the mini-project a successful one.
